EXPERIENCE

I have 23 years of experience in air quality compliance and enforcement, 20 years of which were involved in conducting onsite air quality facility inspection, visible emission evaluations, complain investigations, and stack testing evaluations.

COMPLIANCE SUPERVISOR, Bernalillo County/City of Albuquerque Air Quality Division, October 2(present. Primary responsibilities include reviewing and issuing notice of violations for non-compli with federal clean air act and local air quality regulations, participating in formal and informal

settlement conference to resolve notices of violation to source of excessive air pollution in Bernalillo County/ City of Albuquerque, staying current with changes to federal and local air regulations.

AIR QUALITY INSPECTOR, Bernalillo County/City of Albuquerque Air Quality Division, December 1994 to October 2006. Primary responsibilities included performing onsite inspections of regulated facilities, mentoring new inspector, and coordinating and evaluating stack tests of facilities in Bernalillo County/City of Albuquerque.

AIR QUALITY INSPECTOR, State of New Mexico Air Quality Bureau, September 1988 to December 1994. Primary responsibilities included performing onsite inspections of asphalt plants, concrete plants, sand and gravel plants, and air toxic facilities in New Mexico.

AIR MONITORING QUALITY ASSURANCE TECHNICIAN, State of New Mexico Air Quality Bureau, September 1987 to September 1988. Primary responsibility was performing quality assurance audits of ambient air quality monitors in the New Mexico air monitoring network.

SEASONAL WILDLAND FIREFIGHTER (HELITACK), United States National Park Service, 1984-1987. Primary duties were rappelling from helicopters, clearing landing zones, and building fire lines using a variety of hand and power tools in initial attack against wildfires on federal lands in the western U.S.
