City of Albuquerque Small Business Regulatory Advisory Commission

June 18, 2013 Meeting

Highlights of Proposed Replacement Air Quality Permitting Regulation

- Being heard before the Albuquerque-Bernalillo County Air Quality Control Board on July 10, 2013
- Does not apply to all businesses operating in Albuquerque-Bernalillo County
- Applies to businesses such as manufacturing, aggregate processing, gasoline stations, dry cleaners and businesses with back up emergency generators
- Prior to submittal of an air quality permit application, requires business to:
    - Conduct pre-application meeting with City of Albuquerque Environmental Health Department Air Quality Division
    - Post sign at business summarizing proposed project
    - Notify nearby neighborhood association and neighborhood coalition, typically via email

Note: The City of Albuquerque Environmental Health Department Air Quality Divisions has a federally mandated Small Business Assistance Program to support small businesses in preparing and submittal of air quality permit applications
