

Piedra Lisa Open Space Loop and Canyon Trails

Legend

— Foothills Trails

0 100 200 400 Feet

PLEASE NOTE*

The Canyon Trail that leads to the top of the waterfall rock to the East is comprised of steep, rocky sections. It is not suitable for bicycles or riders on horseback. Please use extreme caution while hiking, and be sure to stay on the official trails as shown on this map. Off-trail travel in an area this steep can cause significant damage to the surrounding hillside. Look for green arrows like the one pictured below to guide you along the trail. There is no official trail beyond the ledge of the waterfall rock.
